

## International Business Exchange Forum

*Technology transfer is the key to achieving sustainability in emerging economies at the medium level business scale. PRIA Global Inc. has created business forums where competent and experienced midsize companies can engage with decision makers of emerging economies to develop partnership providing sustainable services for the built environment.*

### **MAY, 2013 FORUM SUCCESSFULLY CONCLUDED**

#### **A. South America: Colombia, Ecuador, Peru, Panama**

*South America Business Exchange Forum 2013, took place in Bogota, Colombia with participations by some of the highest ranking officials including Ministers of Infrastructure & Transportation, Senators and Ambassadors from each country. The forum was endorsed by the Government of India in Colombia, US Embassy and Colombian Congressional Commission on Infrastructure and Transportation. Essence of the Forum, exclusive "One on One" meetings with decision makers were availed to participating US companies for developing business relationships.*

### **AUGUST 2012 FORUM SUCCESSFULLY CONCLUDED**

#### **B. South East Asia: Myanmar, Thailand, Laos, Cambodia, Vietnam**

*Conceptualized and executed the **IDCM2012** forum as a business exchange model between the public sector clients of the highest levels of the governments of five featured countries & vendors. Exclusive "One on One" meetings with foreign consulting companies and the ministers of infrastructure & trade as well as Secretary of State were availed to interested companies for developing business relationships.*
