

STRATEGIC SOLUTIONS

Assisting Governments of Emerging Economies Restructure:

Team led by PRIA Global Inc. at Colombia National Congress

COLOMBIA: In May 2013, Porie Saikia-Eapen was invited by the Infrastructure and Transportation Commission (Commission VI) of the Colombia National Congress to present innovative & sustainable technology and effective delivery for infrastructure. The five specific topics presented by PRIA Global Inc. led team at the National Capitol in Bogota, are being considered for inclusion in the revised infrastructure policy of Colombia. PRIA Global also leads the team of four companies and has created the Infrastructure Strategic Plan for the State Governments in Colombia.

Assisting Post Conflict Governments Rebuild:

IRAQ: In March 2009, Porie Saikia-Eapen and Maysoon Tawfik, both founders of Tree of Life Professional Development Inc., met with the Iraqi Embassy in London to discuss the embassy's support and assistance in providing project management training for Iraqi engineers and construction managers outside of Iraq. Tree of Life was formed to improve the capacity of the people in distressed, developing, and disadvantaged communities around the world by helping people create their own critical infrastructures through knowledge-sharing and technology transfer.

Capital Planning for Public Works:

PAPUA NEW GUINEA: In November 2012, PRIA Global Inc. signed a Memorandum of Understanding signed with the Department of Community Development of Papua New Guinea to conduct a Strategic Planning and Project Management Training program on sustainable projects and construction management for public sector staff.

Strategies are to be developed reflecting sustainable planning goals such as parallel incremental infrastructure growth, budgetary and program prioritization and local community context.
